- Cross-functional Collaboration
- Technical Consulting

PROFESSIONAL SUMMARY

Client-focused Software Engineer with 6 months of professional experience in international client communication, requirement gathering, and translating business needs into technical solutions. B.Sc. in CSE with strong command of full-stack web development (React, Next.js, Laravel, WordPress) and AI automation tools. Proven ability to manage cross-functional projects, deliver client-facing products, and build long-term relationships with stakeholders across multiple industries including healthcare, education, and HR management.

PROFESSIONAL EXPERIENCE

Software Developer Intern

Xobotronix IT — Dhaka, Bangladesh | Nov 2025 – May 2026

- Communicated directly with international clients across healthcare, education, and HR domains to gather requirements, define project scope, and deliver tailored solutions.
- Customized 23+ Odoo ERP modules, translating client business workflows into automated processes that reduced manual overhead and improved operational efficiency.
- Built Xobo-Pharma: a full-stack digital pharmacy platform with AI-powered features, eCommerce, and automated order-to-invoice workflows — delivered end-to-end for client launch.
- Developed LMS for ESS School and backend services for Whiteshell Hi-Tech, managing project timelines and stakeholder communications across parallel engagements.

PROJECTS

HRMS System

May – Jun 2026

Laravel 13, Livewire 4, PostgreSQL, Spatie Permission

Full-stack HR Management System with multi-company support, payroll, recruitment workflows, 6-role access control, and dashboard analytics. Delivered for client deployment with 209+ tests.
