EDUCATION

B.Sc. in Computer Science

Brac University

Jan 2021 – Jun 2026

CGPA: 3.09

Relevant Coursework:

- Software Engineering
- Algorithms & Data Structures
- Database Systems
- Artificial Intelligence
- Compiler Design
- Operating Systems

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, PHP, HTML5, CSS3

Frameworks: React, Next.js, Laravel, Livewire, Vue.js, Tailwind CSS, Node.js, Express

State Mgmt: Redux, Zustand

Databases: PostgreSQL, MySQL, SQLite, MongoDB, Firebase, Supabase

ERP: Odoo ERP

AI Automation: Claude Code, Codex, OpenCode, PI, Zapier, n8n, OpenClaw, Hermes Agent

DevOps & Cloud: Git, GitHub, GitLab, Docker, GraphQL, REST APIs

Auth & Payments: NextAuth 5, Clerk, Neon Auth, Better Auth

Other: Figma, MCP, LLMs, Prisma

HIGHLIGHTS

- 0.5+ years of professional experience
- 3+ major projects at Xobotronix IT
- 7+ AI automation tools used daily
- 25+ technologies in active use
- Client-facing across 3+ concurrent projects
- Full-stack + ERP + AI agent development

PROFESSIONAL SUMMARY

I'm Rownak (Mohammad Muntasir Kabir), a Software Developer Intern at Xobotronix IT in Dhaka, currently completing my B.Sc. in Computer Science at Brac University (CGPA 3.09). I build full-stack web applications with React, Next.js 16, and Laravel 13, and I'm especially drawn to AI-assisted development — using Claude Code, Codex, n8n, and Zapier to ship reliable software fast. At Xobotronix I've customized 23+ Odoo ERP modules and built client-facing products like Xobo-Pharma (an AI-powered digital pharmacy) and learning management systems. I care about writing tested, maintainable code, owning features end to end, and turning messy business requirements into clean technical deliverables.

PROFESSIONAL EXPERIENCE

Software Developer Intern

Xobotronix IT — Dhaka, Bangladesh | Nov 2025 – May 2026

- Worked extensively with Odoo ERP — customizing 23+ modules, building workflows, and delivering client-facing solutions.
- Leveraged AI Automation tools (Claude Code, Codex, n8n, Zapier) to ship quality software in the shortest time possible.
- Built Xobo-Pharma digital pharmacy: AI Doctor Chat, appointments, eCommerce, inventory, accounting — fully automated order-to-invoice workflows.
- Built a Learning Management System (LMS) for ESS School and backend services for Whiteshell Hi-Tech.
- Actively involved in client communications across multiple projects, gathering requirements and translating them into technical deliverables.

PROJECTS

AI Travel Planner

May – Jun 2026

Next.js 16, React 19, Prisma, NextAuth 5, OpenRouter AI, @dnd-kit, react-globe.gl

AI-powered travel planning with AI-generated itineraries, location suggestions, drag-and-drop trip organization, interactive globe view, and AI chat. 68 tests, rate limiting, error boundaries, input validation.

[GitHub Repo](#) [Live Demo](#)

HRMS System

May – Jun 2026

Laravel 13, Livewire 4, Flux UI v2, Spatie Permission, Tailwind CSS 4, SQLite/MySQL/PostgreSQL

Human Resource Management System: multi-company support, employee management, recruitment workflows, payroll, 6-role access control, audit logging, dashboard analytics, and API resources. Deployed on Vercel. 209+ tests passing.

[GitHub Repo](#) [Live Demo](#)

Event Planner Pro

May – Jun 2026

Next.js 16, Clerk, Prisma, Neon DB, Tailwind CSS

Full-stack event management platform with event creation, attendee management, RSVP tracking, invite links, and polished dashboard. Rate limiting, input validation, error boundaries. 208 tests passing.

[GitHub Repo](#) [Live Demo](#)

GymAI Dhaka

May – Jun 2026

Vite, React 19, React Router, Neon DB, Tailwind CSS

Gym partnership platform in Bangladesh. AI-generated personalized training plans, gym discovery, membership management, partner dashboards. Retry logic for AI API, form validation, error boundaries.
